WHO WE ARE?

We are a licensed and registered system integrator based in Abu Dhabi and Dubai, specializing in ELV systems, security solutions, ICT infrastructure, and EV chargers. Our expertise spans sales, installation, testing, commissioning, and maintenance, ensuring comprehensive service delivery. We integrate AI and automation into our systems to enhance efficiency and security, providing cutting-edge solutions for our clients. Placing our clients' interests at the forefront, we are guided by steadfast values and professional ethics. Our commitment to excellence ensures we consistently meet and exceed our clients' expectations with accuracy and integrity.

VISIONARY EXCELLENCE: INNOVATING CONNECTIVITY AND SECURITY

VISION

To be the UAE's premier system integrator, leading in innovation and excellence in ELV systems, security solutions, ICT infrastructure, and EV chargers.

MISSION

To provide comprehensive and high-quality solutions with integrity and precision, ensuring we consistently exceed client expectations and foster long-term partnerships.

SOLUTIONS WE OFFER

AREA OF EXPERTISE

SALES

A wide range of services tailored to meet your specific needs, ensuring your interests are always our top priority.

INSTALLATIONS

Our efficient teams of engineers specialize in the installation of all our products and services, ensuring expert and seamless setup.

SERVICING & MAINTENANCE

We prioritize your needs post-installation, ensuring comprehensive after-sales service and maintenance. We offer regular checks and maintenance to keep our products in optimal condition.

DESIGNING

We provide customized designs tailored to your requirements, strategically selecting placement locations to maximize efficiency and effectiveness.

TRAININGS/ADVISORY

We offer comprehensive training and advisory services to ensure you are well-equipped with the knowledge and skills to effectively use and maintain our products.

SOLUTIONS WE OFFER

AREA OF EXPERTISE

ELV SYSTEMS

A security system is designed to protect assets through a network of interworking components and devices. In today's world, security is an essential requirement for organizations at all levels. At Sama, we specialize in addressing the security needs of our customers. Our expertise encompasses a range of Security Services, including:

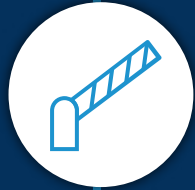

CCTV SYSTEM

A CCTV system employs video cameras to monitor both interior and exterior areas of a property, transmitting signals to a monitor or set of monitors. Utilizing cutting-edge digital technology, CCTV effectively monitors access to secure areas, detects unauthorized activities, prevents theft or criminal damage, ensures personal safety, and can even facilitate remote responses to intrusions.

ACCESS CONTROL SYSTEM

Whether it's a single store or a chain of retail outlets, Access Control Systems (ACS) are designed to regulate entry for employees and visitors using a variety of technologies including swipe cards, proximity cards, PIN entry keypads, and specialized hardware. ACS offers effective solutions tailored for single or multiple sites, ensuring comprehensive access management across your entire establishment.

GATE BARRIERS

Gate barriers are commonly used in residential areas and parking premises to ensure safe and authenticated access. They control vehicle entry and exit at gates using a fixed metal block with an electronically operated pole. Gate barriers effectively prevent unauthorized vehicles from entering and allow access only after proper authentication.

INTERCOM SYSTEM

Intercom systems enhance security and convenience in buildings, apartments, villas, and workplaces, offering owners increased safety and comfort. These systems store historical data, ensuring that information remains accessible over extended periods, further enhancing their utility.

ATTENDANCE SYSTEM

A Time Attendance System enables companies to efficiently manage and monitor employee entries, exits, breaks, absences, and leaves. It facilitates the preparation of detailed reports on employee attendance, helping businesses ensure compliance with employment standards.

GATE BARRIERS

Electronic information display is now an important resource for business, government education and organizations throughout the public sector. Sama Integrated Smart Systems offers a range of complete solutions from flat screen displays, stand-alone kiosk units and signage software to the design and installation of complete signage networks.

PUBLIC ADDRESS (PA) SYSTEM:

Public Address System (PA system), is an electronic sound amplification and distribution system with a microphone, amplifier and loudspeakers, used to allow a person to address a large public, for example for announcements of movements at large and noisy air and terminals, warehouse, factory etc.

CONTROL ROOM:

Control Rooms are essential for monitoring and managing operations in various sectors such as security, transportation, and utilities. Sama Integrated Smart Systems offers fully equipped control room solutions with advanced video wall displays, integrated control systems, and ergonomic workstations. Our solutions ensure efficient workflow, real-time data monitoring, and seamless communication to enhance decision-making and operational efficiency.

BACKGROUND MUSIC (BGM) SYSTEMS:

Background Music Systems (BGM) enhance the ambiance of any space by providing a pleasant and immersive auditory experience. These systems are widely used in retail stores, restaurants, hotels, offices, and other commercial environments to create a welcoming atmosphere. BGM systems can be customized to suit different settings, with various music genres and volume levels to match the desired mood and environment. By integrating seamlessly into the background, BGM systems help improve customer satisfaction, employee productivity, and overall ambiance.

NETWORK & TELECOMMUNICATION

Sama Integrated Smart Systems delivers comprehensive structured cabling solutions, along with expert network installation and maintenance services. Our skilled design and installation team combines cutting-edge technology with exceptional workmanship and professionalism to ensure your project's success. We also specialize in IP telephony, high-speed internet solutions, and wireless network installations, providing robust and scalable connectivity for all your communication needs.

STRUCTURED CABLING SYSTEM (SCS):

As structured cabling systems become more complex and demanding, their design must ensure security, integrity, and adaptability to evolving technologies. Sama Integrated Smart Systems offers end-to-end services, from design to implementation, creating robust cabling infrastructures that support voice, data, video, and multimedia

systems

NETWORK SWITCHES:

A network switch connects multiple IT devices, such as computers, to form a communications network. It enables the sharing of resources like computing power, printing, servers, file storage, and internet access.

WIRELESS SOLUTIONS:

Wireless networks use data connections between nodes without cables, providing a cost-effective alternative for homes, businesses, and telecom networks by connecting equipment locations wirelessly.

IP & HYBRID PBX:

Hybrid IP PBX systems, also known as digital hybrid IP-PBX, VoIP PBX, or IP-based PBX, integrate traditional PBX phone systems with VoIP technology, widely used in small businesses, educational institutions, and professional offices.

EV CHARGING SOLUTIONS

Sama Integrated Smart Systems offers advanced charging solutions for residential and commercial clients, providing a variety of charging stations along with comprehensive installation and maintenance services.

We offer a comprehensive range of EV charging solutions tailored to both consumer and commercial needs, including:

COMMERCIAL CHARGERS:

Scalable, high-speed charging solutions for businesses, fleet operators, and public spaces, featuring advanced energy management capabilities.

SOFTWARE SOLUTIONS:

Our cloud-based platform allows users to monitor, manage, and optimize charging operations for efficient resource use.

SOFTWARE SOLUTIONS:

Smart, user-friendly home charging stations that enable EV owners to conveniently charge their vehicles overnight.

FAST CHARGERS:

Rapid charging stations strategically placed along highways and high-traffic areas, providing quick top-ups for travelers.

AI INTEGRATION

Sama Integrated Smart Systems offers AI-driven solutions that leverage computer vision and deep learning models to enhance monitoring and analysis. Our platform integrates seamlessly with existing CCTV systems, providing real-time behavior analysis and actionable insights. Utilizing advanced technologies like NVIDIA Deep Stream, TensorFlow, and PyTorch, our AI solutions ensure high accuracy, scalability, and security. Designed for various environments, including retail and restaurants, our AI integration streamlines operations, optimizes compliance, and supports data-driven decision-making.

ON-PREMISES AI FOR SECURE, REAL-TIME MONITORING AND ANALYSIS:

WORKS ON EXISTING CCTV INFRASTRUCTURE:

Our software integrates seamlessly with existing CCTV systems to provide continuous monitoring.

IN-HOUSE AI MODELS:

Our deep learning models operate in on-premise mode, ensuring complete IP secrecy and data security.

REAL-TIME NOTIFICATIONS:

Automatic alerts are dispatched via emails, SMS, and push notifications, with daily dashboard reports that include periodic analysis to identify trends.

REAL-TIME AND ANALYTICAL OUTPUTS:

The software delivers real-time alerts for incidents such as mishandling, fire, and disturbances, alongside detailed analytics on utilization, productivity, and idle times.

MOBILE APPS (SOFTWARE & DEVELOPMENT)

We develop custom mobile apps and software solutions that enhance user experience and optimize operations across various sectors. Our offerings include user-friendly interfaces, seamless integration with existing systems, and advanced features tailored to meet specific client needs, ensuring efficient and scalable digital solutions.

BLOOM GARDENS ABU DHABI

Solution Brief :

Implementation of parking management via ANPR Cameras and Gate Barrier with antipass solution

01

▶ Client	Bloom Gardens, AUH
▶ Location	Abu Dhabi
▶ Project Value	410K AED
▶ Project Name	ELV & Security Systems
▶ ANPR Camera	Dahua
▶ Gate Barrier	Came
▶ Intercom	Dahua
▶ IP CCTV Camera	Valvur
▶ Core & Edge Switches	TP-Link
▶ Cabling	Panduit

ABU DHABI POLICE

Solution Brief :

Provide camera & NVR with implementation of Video Wall Systems

02

▶ Client	Abu Dhabi Police
▶ Location	Abu Dhabi
▶ Project Value	0.5M AED
▶ Project Name	Camera & NVR with Video Wall Systems
▶ IP Cameras	Dahua
▶ Video Wall	Dahua

ROLLS-ROYCE MOTOR

Solution Brief :

Providing ELV & Security Systems as per the ADMCC regulation, consultant and authority regulations.

03

▶ Client	Rolls-Royce Motor
▶ Location	Abu Dhabi
▶ Project Value	400K AED
▶ Project Name	ELV & Security Systems
▶ IP Cameras	Valvur
▶ Cat 6A Cabling	Panduit
▶ BGM System	Bose
▶ ACS System	Valvur
▶ Core & Edge Switches	Cisco
▶ WAPs	Cisco

our projects

NOVOTEL & ADAGIO HOTEL

Solution Brief :

Provide network upgrade including dual core switches without time breakdown

04

▶ Client	Novotel & Adagio Hotel
▶ Location	Abu Dhabi
▶ Project Value	1.6M AED
▶ Project Name	Camera & NVR with Video Wall Systems
▶ Core & Edge Switches	Aruba
▶ WAPs	Aruba
▶ Cabling	Panduit

our projects

BMW ABU DHABI MOTORS

Solution Brief :
Implementation of parking management via ANPR Cameras and Gate Barrier with antipass solution

05

▶ Client	BMW Abu Dhabi Motors
▶ Location	Khalidiya Showroom
▶ Project Value	0.5M AED
▶ Project Name	ELV & Security Systems
▶ Core & Edge Switches	Cisco
▶ IP Cameras	Valvur
▶ WAPs	Cisco
▶ UPS	Panduit
▶ Cat 6A Cabling	Panduit
▶ PA System	ASL

AL BUSTAN TOWER 1

Solution Brief :
Provide LED Screen, Security System with AV @ control room

06

▶ Client	iFM Facilities Management
▶ Location	Al Bustan Tower 1, AUH.
▶ Project Value	0.5M AED
▶ Project Name	ELV System & LED Screen
▶ LED Screen & Control	Hikvision
▶ Network	Cisco
▶ Camera	Hikvision
▶ Cabling	Panduit / DME
▶ Access control	prolink
▶ System	Hikvision
▶ Interactive Screen	Hikvision

BMW ABU DHABI MOTORS

Solution Brief :

Provide Outdoor transparent LED in two sides wall.

07

▶ Client	Rolls-Royce Motor
▶ Location	Abu Dhabi
▶ Project Value	400K AED
▶ Project Name	ELV & Security Systems
▶ Outdoor transparent LED IP	Dahua
▶ Core & Edge Switches	Cisco
▶ Cat 6A Cabling	Panduit

our projects

AL MAMZAR, DUBAI

Solution Brief :

As per Sira regulation, CCTV Cameras implementation with approvals

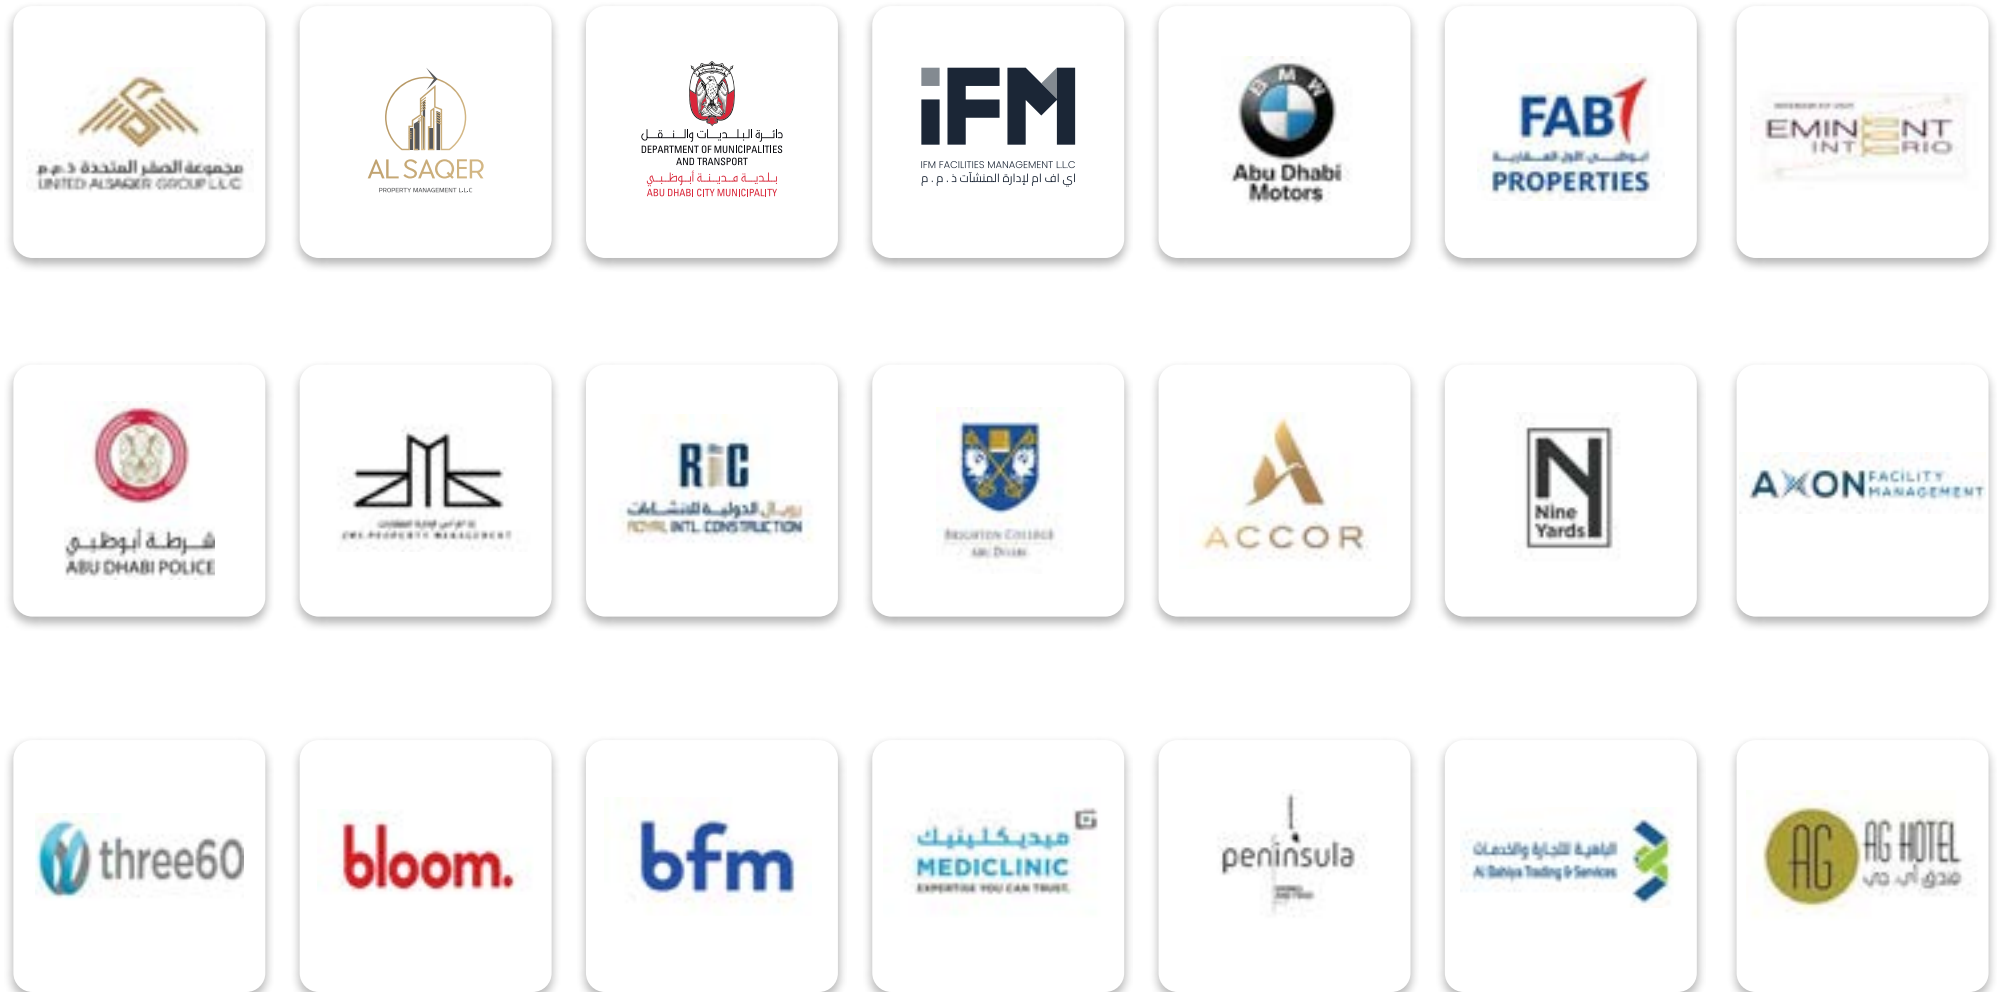

08

▶ Client	ZMS Property Management
▶ Location	Dubai
▶ Project Value	0.6M AED
▶ Project Name	CCTV System
▶ ANPR Camera	Hikvision
▶ IP CCTV Camera	Hikvision
▶ Core & Edge Switches	Tp-Link
▶ Video Wall	Samsung
▶ UPS	Legrand
▶ SCS Cabling	Excel
